ADDENDUM 001
REQUEST FOR QUOTATION (RFQ) NUMBER: D210-067-R2

Vendors shall acknowledge receipt of Addendum 001 (ONE) by signing and including it with the quotation response. The following clarifications, questions and answers are believed to be of general interest to all potential vendors. All other terms and conditions remain unchanged and in full force.

<u>Name and Title of Signer (Print or type):</u>	<u>Name and Title of Department Authority:</u> William D. "Bill" Noyes, CPPO, CPPB Senior Procurement Agent
Vendor Signature	Missouri Department of Transportation
<u>(Signature of person authorized to sign)</u>	<u>William D. Noyes</u> (Authorizing Signature)
Date Signed:	Date Signed: May 12, 2010

This signed addendum should be included with your RFQ response.

1. The following question was received from a vendor: "Our equipment can only grind within 24" of a vertical surface. Will that be acceptable and does it affect the bid quantity?"

Response:

The Contractor will be required to grind as close to any vertical surface as their equipment will allow. The distance from any vertical surface shall be no greater than 24 inches. This reduces the amount of surface area to grind from the original amount of 1280 square yards, to 1080 square yards (442 feet by 22 feet = 9724 square feet or 1080 square yards). Accordingly, award and payment will be made based on a revised plan quantity of 1080 square yards. No final field measurement will be made, unless there is significant change to the scope or quantity of deck to be ground. A mobilization pay item will be included as one lump sum separate from diamond grinding. **Please enter your price quotation on the revised chart below:**

Qty	U/M	DESCRIPTION	UNIT PRICE	UNIT PRICE EXTENSION
1080	Square Yards	Diamond Grinding Bridge Surface (per scope of work above)	\$ sqyd	\$
1	Lump Sum	Mobilization	-----	\$
TOTAL PROJECT COST:			\$	
VENDOR NAME: (Please enter your company name in this block)				

2. The following question was received from a vendor: "Is there any exposed surface steel within the grinding limits (End Dams or Expansion joints)?"

Response:

No, there is no exposed surface steel within the grinding limits.

3. The following question was received from a vendor: "What is the current surface. Asphalt or Concrete?"

Response:

The current surface is a partial thin cinder seal over concrete.

4. The required insurance limits, as listed on page 2 of the original RFQ document, have been changed. The new limits required will be as they are listed in the following provisions from the 2004 edition of the Missouri Standard Specifications for Highway Construction handbook.

107.13 Insurance Requirements. The contractor shall procure and maintain at the contractor's expense until acceptance of the project by the engineer, insurance for all damages and losses imposed by law and assumed under the contract, of the kinds and in the amounts specified in Secs 107.13.1 through 107.13.4. Before the contractor begins the work, the contractor shall require the insurance company or companies to furnish to the engineer evidence of such insurance showing compliance with these specifications. All insurance required in Sec 107.13 shall be occurrence policies in a form acceptable to the engineer, and shall remain in force until all work required to be performed under the terms of the contract is satisfactorily completed as evidenced by formal acceptance by the engineer. Each policy or policy's declaration pages shall provide that the policy shall not be materially changed or canceled until the engineer has been given at least 30 days advance notice in writing. If any policy is canceled before the contract work is complete, a satisfactory replacement policy shall be in force, with notice and evidence of insurance submitted to the engineer, prior to the effective date of cancellation of the former policy. All evidence of insurance and notices shall be submitted to: Construction and Materials, MoDOT, 105 W. Capitol Avenue, P.O. Box 270, Jefferson City, Missouri 65102-0270. Upon request, the contractor shall promptly furnish the engineer with a complete copy of the policy. Failure to furnish evidence of proper insurance, or complete insurance policies when requested, will result in the temporary suspension of work as provided in Sec 108, and may result in other claims or actions for breach of contract or otherwise, as may be recognized at law or in equity.

107.13.1 Workers' Compensation Insurance. The contractor shall furnish evidence to the engineer that, with respect to the operations the contractor performs, the contractor carries workers' compensation insurance, or is qualified by the Missouri Division of Workers' Compensation as self-insured, and carries insurance for employer's liability sufficient to comply with all obligations under state laws relating to workers' compensation and employer's liability. The contractor shall require each subcontractor on the project to furnish the same evidence to the engineer. This evidence shall be furnished to and approved by the engineer prior to the time the contractor or subcontractor commences work on the site of the project.

107.13.2 Contractor's Liability Insurance with Additional Insured Parties.

107.13.2.1 Commercial General Liability Insurance. The contractor shall obtain one or more occurrence-based policies of commercial general liability insurance (Form CG 00 01 or equivalent) that provide coverage for the contract work. The minimum limits of liability for commercial general liability insurance shall be: \$1,000,000 each bodily injury or property damage occurrence, combined single limit, \$2,000,000 general aggregate with a per project endorsement and \$1,000,000 products/completed operations aggregate. Each such policy shall be endorsed to cover liability arising from blasting if applicable, other inherently dangerous activities, and underground property damage. Each such policy shall be endorsed to include broad form general liability, contractual liability and completed operations coverage.

5. All other requirements and details of the RFQ remain unchanged.

6. All quotations are still due no later than Tuesday, May 18, 2010 @ 1:00 PM Central Time.
